QUALITY & COMMITMENT

# COMPANY PROFILE

Perfect Building System is one of the fastest growing manufacturing companies in today's Indian industrial and architectural market, since its establishment in 2012. Perfect Building System is working with a single vision in mind that is "to provide the best quality products and exemplary services to their clients". Over the year "Perfect Building System" works closely with the clients to understand their requirement and specific needs and has successfully executed numerous projects by providing the most comprehensive range of building components, roofing steel sheets, corrugated sheet, coated steel panels, roofing sheets, insulated roofing panels, corrugated roofing sheets, coated etc.

## WHY PBS?

### PEB Expert

We offer Turnkey or PEB Project Execution, which includes civil-based activities if required.

### Enhanced Speed Construction

Innovative infrastructure that boosts production capabilities.

### Updated Technology

Achieving Top-tire Results with Cutting-edge Technology.

### Quality Control

Our top priority is to conduct quality assurance checks on high-grade raw materials.

## VISION

To achieve global excellence as the leading supplier of Pre-Engineered Buildings.

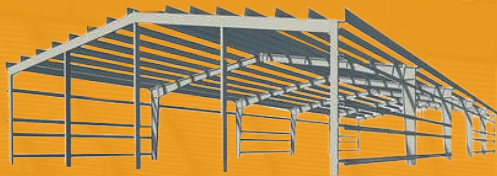

## MISSION

Provide innovative and affordable solutions for your all construction needs.

# OUR SERVICES

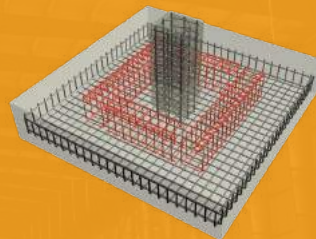

## Mechanical Works

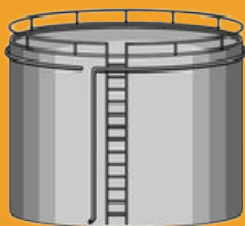

- Pre-Engineered Building
- Warehouse building
- Industrial Shed
- Factory Shed
- Commercial Building
- Pre- Fabricated Works
- Other Fabrication Works
- Erection
- Turnkey Solution
- Indoor Stadium
- Aircraft Hangar
- Workshops

- Boundary Walls
- Foundation and Pedestal
- Laser Flooring
- Interlocking Tiles
- RCC Road Works
- Commercial Complex

## Civil Works

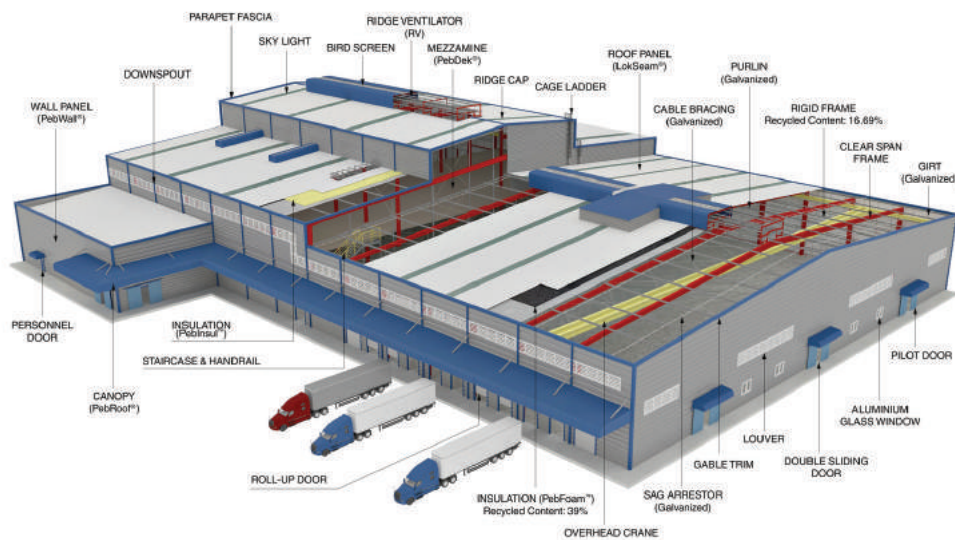

## Other Works

- Fire Fighting Works
- Electrification Works
- Fire Fighting Tanks
- Portable Cabin
- Site Office
- Labour Qatar
- Guard Room
- Portable Toilets

# MECHANICAL WORKS

## Pre-Engineered Building

Our meticulously designed buildings meet diverse customer needs with competitive pricing and adherence to timelines. Pre-engineered buildings (PEBs) cater to various applications, from residential garages to distribution centers. Notable features include low-pitch roofs, vibrant panels, and customizable exterior finishes like fascias and mansards, reflecting contemporary construction standards.

Commercial Buildings

# CIVIL WORKS

## Boundary Walls

Specializing in modern boundary walls, we offer tailored solutions crafted with contemporary design and durable materials. Enhance security and aesthetics for industrial properties with our expertly executed construction services.

## Foundation and Pedestal

Our Foundations and Pedestals epitomize superior quality and efficiency. With expert craftsmanship, we establish the ideal groundwork for robust structures. Trust in our excellence for construction essentials that define durability and precision.

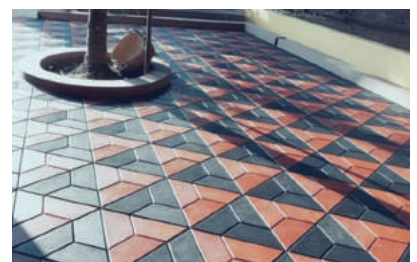

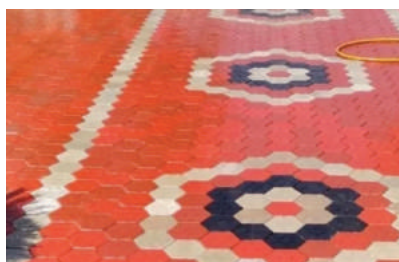

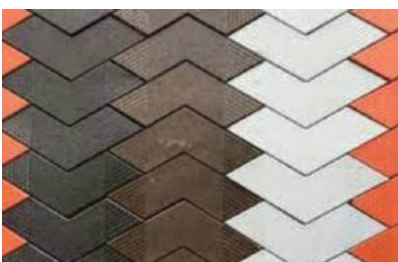

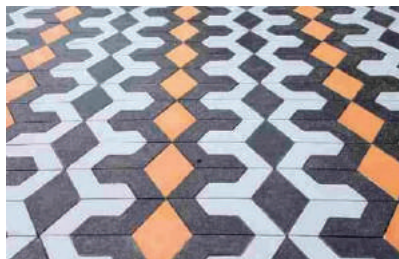

## Interlocking Tiles

Discover unmatched quality with our interlocking paver blocks. Crafted with premium materials and precision engineering, our blocks ensure enduring strength and resilience. Each block seamlessly interlocks, creating a robust surface that withstands time and weather. With a diverse range of colors, shapes, and textures, our paver blocks offer limitless creative possibilities. Elevate your projects with confidence, knowing you've chosen the finest solution in the industry. Experience the epitome of durability and aesthetics with our interlocking paver blocks.

## Paver Blocks Varieties

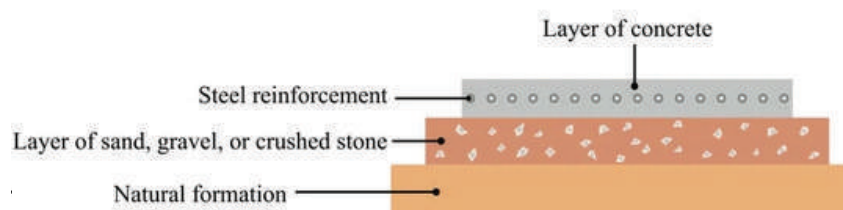

## Laser Flooring

Experience efficient concrete flooring with Laser Screed technology, offering seamless construction in wide bays of any size. This innovative system reduces time, labor, and construction joints while enhancing floor flatness. Laser Screed, operated by laser transmitters, receivers, and computers, ensures precision without manual errors. It is suitable for large distribution centers and manufacturing units and with this system, vast areas can be efficiently floored in a matter of days, through precise measurement and expert floor laying techniques.

## RCC Road Works

We build the finest RCC roads, setting benchmarks in quality and efficiency. Engineered for durability, efficiency, and quality, our roads stand the test of time. Experience smooth, reliable transportation infrastructure like never before.
